

A Passionate, Dynamic Chiropractor is required to start mid January 2012 in Maleny, QLD. You will be part of the Hinterland Allied Health Services Team (HAHST). We will be located next to Medicine on Maple (MOM). MOM is aligned with a sister clinic in Montville. A combined patient base of 5000 local residents utilize their services. The two clinics are staffed by 5GP's, 5 Nurses and 5 medical receptionists. They are the only fully bulk billing practice in the Hinterland. Allied Health includes Pathology, Hearing, Physiotherapy, Podiatry, Psychology, Social Work, Dietitians, Exercise Physiology and most importantly Chiropractic.

My established home based Conondale clinic of 6 years is relocating to the newly constructed offices. I started negotiation with Dr Zoltan Bourne to relocate in July 2011. Unfortunately in early Sept, I herniated my L4/5 disc very badly, I am still recovering slowly. I practice TPT, Diversified and a variety of ancillary procedures. Last year, 65% of my income can via MOM through Medicare's EPC program. I feel this percentage will increase in the new offices.

My role will be practice CA / Manager, your role is the Primary Chiropractor. I would like to treat a small number of patients again in the future, body willing. Anything, I have ever found out about the Business of Chiropractic, I am happy to share with you. Your capacity to generate an income is only limited by yourself. You will be compensated very well for your time and skills. If you would like to practice with great working conditions in one of Australia's most beautiful natural environments, call me! Lee Daffin, (07) 5435 0172 or leedaffin@westnet.com.au
