“The Complete Package”

Associate required to support THREE practices in SOUTH AUSTRALIA: Lobethal, Mannum, and (satellite practice) Stansbury

As we are looking to expand current services to meet demand, an Associate Chiropractor with a strong wellness philosophy is required to join our family orientated multi-disciplinary group of practices. An experienced chiropractor with a special interest in pregnancy, babies and children would be ideal however we would also definitely consider a mature minded new graduate who is ready to settle in and serve a close-knit, supportive semi-rural community.

The practices
The townships of both Lobethal and Mannum cater well for families and singles with a strong sense of community spirit.

The Lobethal clinic relocated from the adjacent township of Birdwood (est 1997) in 2011. Located in the picturesque Adelaide Hills, only 40kms from Adelaide CBD, Lobethal is well known for its Christmas lights festival and the region boasts many exceptional boutique wineries.

The Mannum clinic, established since 1998, is located on the banks of the beautiful River Murray and is an hour from Adelaide. It offers relaxed summer living along with many new housing developments, shopping centre and a marina. This practice will also be relocated to brand new premises in 2015 in a purpose built complex dedicated to wellness services.

The Stansbury clinic is located on the esplanade on the magnificent Yorke Peninsula. Although in operation for 8 years this satellite practice has been kept to a restricted operation of fortnightly appointments due to the principals other clinic commitments. Its full potential is yet to be discovered. Enjoy sea breezes and great ocean views. Fishing and swimming or a relaxing stroll on the beach is a must.

The team
The team currently consists of the dedicated principal Chiropractor, a supportive and well trained team of CA’s, Massage/ Bowen therapist, Naturopath and Podiatrist, who are all keen to find just the right personality for their loving, caring, child friendly (mum friendly!) practice.

The successful applicant will need to demonstrate a willingness to embrace current clinic policies and procedures, meet key performance goals and work as part of an enthusiastic, proactive team to maintain an exceptional standard of service to our clients.

The requirements
Ideally, this opportunity would best suit:

- A coachable fast learner who is keen to broaden their chiropractic knowledge and technical skills whilst adhering to the well-established and structured systems and procedures of the practice
- A hard working, community conscious self-starter who is prepared to put in the hard yards to build their volume
- A keen wellness enthusiast who would like to expand their knowledge in nutritional support, products and supplements and rehabilitation programs
- A supportive team player with a high value for gratitude and a genuine respect for a healthy work/life balance for all team members
- A warm, compassionate “people person” with exceptional standards of customer service
- An enthusiastic member of the chiropractic community with proven involvement in industry related events and activities
- A happy traveller who has no objection to moving between the three diverse locations

The rewards
This dynamic role represents an excellent opportunity to earn a solid income and work within a long standing, professional and successful practice environment. Plenty of ongoing training and support is provided to rapidly expand an already respectable existing patient base. A minimum 2 year employee contract is expected, and in return there will be a base salary with generous sliding % scale based remuneration.

Need accommodation to complete the package? A delightful, fully furnished and equipped unit, adjacent to the Lobethal practice, is also available for rent if required!

Is this your dream opportunity? Please direct applications and any enquiries to info@flourishenterprises.com.au
